For example, you can use IP Address Lookup to make sure an individual is located where they say they are in order to avoid fraud.

It is sometimes useful to know whether somebody is contacting you from the USA, the UK, Nigeria or China for example. Our IP Address Locator tool is the right tool to know IP location from any IP address or Domain.

Reverse IP Lookup Location of IP Addresses and DNS

With our IP lookup tool also known as IP Locator you can find Domain, IP address location and search for additional information from any IP address or Domain Name such as reverse DNS (using inverse address in-addr.arpa for IPs version 4 and ip6.arpa for IPs version 6), Hostname, ASN, Nameservers, Timezone etc.

But it is not all. [Reverse IP](#), among other tools, is very handy for searching how many domains are associated with same IP.

And if you are looking for Domain Lookup and would like to search and find out WHOIS the real owner of any domain name then is our [Whois Lookup](#)

tool very powerful way to give you all information about owner of domain or any IPv4 and IPv6 address.
